

2-DAY ADVANCED COURSE

SPINAL WEEKEND

Surgical Treatment of Wobbler Syndrome, Spinal Fractures, & DLSS using C-LOX, LeiPED & LeiCAGE

31. OCT - 1. NOV 2025

STUTTGART, GERMANY

REGISTRATION

The **Spinal Weekend** is an intensive 2-day course designed for veterinarians seeking to elevate their expertise in diagnosing and surgically treating complex spinal conditions in dogs. Through a carefully curated mix of lectures, interactive sessions, and hands-on labs, this course offers a deep dive into the anatomy, pathology, imaging, and stabilization techniques of the cervical and lumbosacral spine.

Day 1 - Cervical Spine & C-LOX System

Day 1 focuses on Caudal Cervical Spondylomyelopathy (Wobbler Syndrome), including diagnostic imaging and treatment planning. Participants will gain hands-on experience with the C-LOX implant system during a practical wet lab session following expert-led lectures on surgical techniques and instrumentation.

Day 2 - Lumbosacral Pathologies & Pedicle Screw Systems

Day 2 covers lumbosacral diseases like Degenerative Lumbosacral Stenosis (DLSS) and spinal fractures, with emphasis on imaging and stabilization indications. The LeiPED Pedicle Screw System and the LeiCAGE Intervertebral Cages are introduced, followed by a dry/wet lab session covering technical details, surgical indications, and dedicated instrumentation for both systems, with hands-on practice using spine models.

Who Should Attend? This course is ideal for veterinarians with a solid foundation in orthopedic surgery who wish to advance into spinal procedures. Whether you're looking to begin offering spinal surgeries or refine your approach with the latest implant systems, this weekend will provide the theoretical framework and practical experience needed to confidently move forward.

GENERAL INFORMATION

Course Fee: 1390 EUR (excl. VAT)

Language: English

Lecturer:
Prof. Dr. Björn Meij
Dr. med. vet., PhD, ECVS

CE Credits: to be advised

Advanced Course
2 days, approx. 7 to 8 hours per day

Dry Lab & Wet Lab

Limited seats: Register now!

DID YOU KNOW?

Spinal Implant Systems from Rita Leibinger

C-LOX Cervical Intervertebral Fusion Implant

Combines the benefits of an intervertebral spacer, rigid titanium plate, and locking screw fixation.

NEW!! LeiPED Titanium Pedicle Screw System

An advanced spinal fixation solution for dogs that offers superior anatomical fit, enhanced stability, and minimized tissue disruption through its compact, asymmetric side-loading screw design and bone-near rod placement.

NEW!! LeiCAGE Intervertebral Titanium Cages

Designed to restore intervertebral disc height, support spinal fusion, and ensure immediate biomechanical stability and osseointegration.

COURSE AGENDA

Day 1

9:00	Registration
9:30	Caudal Cervical Spondylomyelopathy
10:00	Diagnostic Imaging of the cervical spine
10:30	Coffee Break
10:50	C-LOX: Implants, Instruments, Surgical Planning, and Application Technique
12:00	Lunch
13:00	Wet Lab
15:30	Coffee Break
15:45 to 16:15	Final Discussion, Questions

Day 2

8:30	Spinal Diseases in Dogs and Cats: Imaging and Indications for Stabilization
9:30	Coffee Break
9:45	Low Back Pain and Degenerative Lumbosacral Stenosis (DLSS); Introduction to Pedicle Screws Indications and Use in Spinal Diseases (Fractures and DLSS); Introduction to the LeiPED Pedicle Screw System and LeiCAGE Intervertebral Cages: Technical Details and Instruments
12:00	Lunch
13:00 to 16:30	Dry Lab / Wet Lab Hands-on workshop with the LeiPED Pedicle Screw System and LeiCAGE Intervertebral Cages on spine models

FACULTY

Björn Meij
Dr. med. vet., PhD, ECVS

Björn Meij is a Dutch veterinarian, professor and European specialist (Diplomate ECVS) in small animal surgery since 1993.

Today, he is head of surgery at the Utrecht university where he leads a team of specialist surgeons and is ECVS resident coordinator.

Dr. Meij is well-known for his research within orthopaedics and neurosurgery.

COMPLEMENTARY INFORMATION

Course Venue:

Anicura Tierklinik Stuttgart-Plieningen
Hermann-Fein-Strasse 15
70599 Stuttgart, Germany

Accommodations:

A list of suggested hotels shall be provided for you upon request

Course Fee inclusions:

Course Materials
Wet/Dry Lab Materials
Lunch, Drinks, Snacks

INTERESTED IN JOINING?

REGISTRATION

- 1 Fill out the form below and send to us by Mail (*Postage stamp required*)
- 2 Or send by email to info@leibinger-medical.com

- 3 Or fax to +49 7463 99 291 55
- 4 Online Registration: Scan the QR-Code or visit: www.leibinger.vet/academy
